Work Experience

Shopify, Canada *(May 2019 - Present)*

Senior Product Designer

I started at as a Junior Product Designer and I'm now a Senior Product Designer on the Financial Solutions team, designing the experience for Shopify Balance. This is a strategic role, on a new product, requiring collaboration across multiple teams and disciplines. I previously led UX for Shopify Tax.

Cognizant, Singapore *(Jan 2019 - Apr 2019)*

UX Designer

Worked at GovTech Singapore, as the lead designer for the MCCY grants portal. As part of my role, I translated complex information and requirements to create end-to-end design solutions. I also ran usability sessions, and provided IA, wireframes, and hi-fidelity designs.

Sweetist Inc., New York *(Aug 2016 - Jul 2017)*

Junior Software Developer

As a full-stack developer, I worked on implementing functionality to support referral programs and nation-wide delivery. I also worked to modularize code and create documentation to help facilitate contribution by other developers.
